I was sitting here...all alone  
thinking about the times we spent together  
We'd walk side by side, hand in hand  
outside in the cold weather  
And I remember when  
You'd tell me all your hurts and pains  
and I'd remind you that (whisper: have faith in me)  
the sun still rises after the rain

(CHORUS)

Oh how I love you so

I'll never let you go

WO DUO MA AI NI (I love you so much)

WO SHI ZEN MA DE AI NI (I really do love you)

You would come to me....I'd encourage you  
about all your hope and dreams  
And when times were tough, I'd remind you that  
things aren't always as they seem  
And I remember when  
in me you would confide  
and I'd remind you that (whisper: just trust in me)  
everything would be alright

(CHORUS)

(RAP)

Child please....don't forget, you know that I be waitin'  
for you to come home, see I know that you be late and  
maybe you were out datin' forgot about the time,  
I remember I was the one to make you smile.

Go that extra mile all the while now the days go by and you the one that makes me cry.  
in the morning in the night, time and time and again.  
I remember when...

Bridge:

So how could you leave me without sayin' goodbye  
You leave me hangin' asking why oh why  
Please come back to me  
Can't you see me reaching out to you?

(CHORUS)
